

MURAD MOHAMMED HAJJAJ

Full-Stack Web & Backend Developer | Software Engineer | Data Management Specialist

Email: muradmohhajaj@gmail.com | Phone: +970595321243 | Location: Palestine, Gaza City |

Portfolio: [muradhajaj-portfolio.up.railway.app](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer and Full-Stack Developer (IUG, 2024 Graduate) with expertise in PHP (Laravel), Node.js, React, and Database Architecture (SQL & MongoDB). Proven track record in engineering scalable web applications, RESTful APIs, custom administration dashboards, and deploying live applications on cloud platforms like Railway. Combines software engineering precision with over 2 years of hands-on experience in financial systems (Al-Aseel) and field data collection tools (KoboToolbox/ODK). Dedicated to building clean, secure code and optimizing database performance in fast-paced environments.

TECHNICAL & PROFESSIONAL SKILLS

Backend: PHP, Laravel Framework, Node.js, REST APIs

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

Databases: MySQL / Relational SQL, MongoDB

Deployment & Tools: Railway Cloud Platform, Git, GitHub, Cursor, VS Code

Data Tools: KoboToolbox, ODK, Advanced MS Excel, Al-Aseel POS

Architecture: System Design, Role-Based Access Control (RBAC), UI/UX Layouts

FEATURED SOFTWARE PROJECTS

Personal Developer Portfolio Web App

Live Application | Railway Cloud Hosting

- Engineered and deployed a responsive developer portfolio web app hosted on Railway: [muradhajaj-portfolio.up.railway.app](#).
- Structured dynamic layouts to showcase software engineering projects, technical stack, and interactive client workflows.

Cleaning Service Management System

Laravel / SQL / RBAC

- Designed full application architecture featuring Role-Based Access Control (RBAC) tailored across 4 distinct user roles.
- Engineered service dispatch workflows, automated scheduling, and real-time operational status dashboards.

E-Commerce Web Application

PHP / MongoDB / REST API

- Developed a full-stack platform with custom authentication, shopping cart architecture, and structured RESTful APIs.
- Optimized database queries and API response payloads, boosting page rendering speed and system efficiency.

Clean Blog Administration Dashboard

Laravel / PHP / Bootstrap

- Built and debugged an administrative dashboard incorporating authentication, system health checks, and image processing via Intervention Image (WebP conversion).

WORK EXPERIENCE & INTERNSHIPS

Freelance Backend & Full-Stack Web Developer

2024 – Present

- Building and deploying custom web applications, REST APIs, and admin control panels using Laravel, React, and SQL/MongoDB databases.

Field Monitor & Data Collector | RCF Foundation, Gaza Strip

Jan 2025 – Dec 2025

- Coordinated field movement logistics and managed digital data collection pipelines via KoboToolbox & ODK.
- Applied advanced validation logic and data quality audits to guarantee maximum information integrity.

Cashier & Financial Data Operator | Yasser Saqalla Sweets

Feb 2022 – Oct 2023

- Managed accounting entries and point-of-sale transactions using the Al-Aseel System with 100% accuracy.
- Reconciled physical inventory stock and verified vendor procurement invoices.

Software Development Trainee & Intern

Jan 2025 – Jan 2026

- Practiced back-end architecture, Git version control, network troubleshooting, and practical web project deployment.

EDUCATION

Bachelor of Software Engineering & Computer Engineering — Islamic University of Gaza

Graduated: 2024

Core studies: Software Architecture, Web Development, Database Systems (SQL & NoSQL), Networking, and System Analysis.
